## SUMMARY OF TERMS & CONDITIONS:

Please view the Full Terms and Conditions to which you are agreeing at:

<http://www.manifestauctions.com/terms-and-conditions> or by contacting us directly.

**1. Acceptance of Terms and Conditions** - Registration and Bidding in this Auction constitutes acceptance of all items in the Terms and Conditions, full Terms and Conditions can be found at [www.manifestauctions.com/terms-and-conditions](http://www.manifestauctions.com/terms-and-conditions)

**2. Descriptions and Grading** - Manifest makes good faith effort to accurately describe and provide grades for items listed for auction. Grading and Descriptions are necessarily subjective, all bidders are encouraged to carefully examine any lots they are interested in bidding on to make their own evaluation as to the condition. All items are guaranteed to be authentic. **Any items graded and authenticated by a third party are the opinion of that grader and are not returnable. Returns are accepted if an item is significantly misrepresented.**

**3. Bidding** - The Auctioneer has full discretion to accept or reject any bids at any time. In the case of any "tie" bids, the Auctioneer will determine who, in his opinion made the bid first. If there is a dispute, the Auctioneer may reopen or resell a lot. Lots will be sold in their numbered order unless Auctioneer decides otherwise. Manifest is not responsible for any errors in bidding and all accepted bids are binding once the hammer falls.

**4. Collusion, Bid Rigging** - Bidders acknowledge that bid rigging or any cooperative effort to reduce the sales price of an item is a Federal Crime subject to treble damages, costs and attorney's fees.

**5. Prices & Buyer's Premium** - All lots are subject to a **Buyer's Premium of 17%** . **Sales Tax is charged on all applicable lots purchased by residents of the state of South Carolina**, unless a resale license number is on file. Non-SC Residents do not pay sales tax.

**6. Payment** - Acceptable forms of payment are check, cash or bank wire. We do not accept credit cards, cashier's check or credit card checks. All payment must be made in US Dollars through a bank located in the United States. On any cash transactions exceeding \$10,000 a Treasury form 8300 will be filed. Contact Manifest for wiring instructions before sending a wire. All lots must be paid in full before delivery.

**7. Delivery** - Winning Bidder is responsible for any shipping costs, postage, freight charges, insurance, and any applicable handling or other fees.

**8. Waiver and Release** - Bidder, for himself, his heirs, agents, successors and assigns, generally and specifically waives and releases, and forever discharges Manifest, and its respective affiliates, parents, shareholders, agents, subsidiaries, employees, members of their respective boards of directors, and each of them, and their respective successors and assigns from any and all claims, rights demands and causes of actions and suits, of whatever kind or nature, whether in law or equity, whether known or unknown, suspected or unsuspected, which Bidder may claim to have with respect to and/or arising out of, or in connection with any challenge to the title to any goods purchased, the sale itself, and/or the auction, except where such reimbursement is otherwise authorized in these Terms and Conditions of Auction Sale. It is the intention

of Bidder that this waiver and release shall be effective as a bar to each and every claim, demand, cause of action and suit that may arise hereunder, and Purchaser hereby knowingly and voluntarily waives any and all rights and benefits to sue related to title or ownership of property.

**9. Disputes** - If a dispute arises concerning ownership of a lot that has been bid upon, Manifest reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and successful Bidder and any other applicable party, and in such event shall be entitled to its reasonable attorney's fees and costs.

## Lot 73 - 1940-56 PDS Mint Set 244 Coins

A spectacular group of original mint sets from 1940 to 1956. These were put together at the time of issue and are not government issued. The coins range from AU to Gem BU 68 or better and many acquired beautiful toning from the old time original album they have sat in for all these years. This group hails from the Frank Roza estate. With PCGS registry coins bringing tens of thousands each, there is potentially huge upside in here. These have never been submitted to any service and were in the possession of the same estate until the September Long Beach Coin Show. Some extra coins in lot, 244 pieces total.

**Grade:**  
AU - Gem BU

**Estimate:**  
\$4000-8000

### Lot 133 - Bermuda 1st August 1920 5 Shillings (P3a)

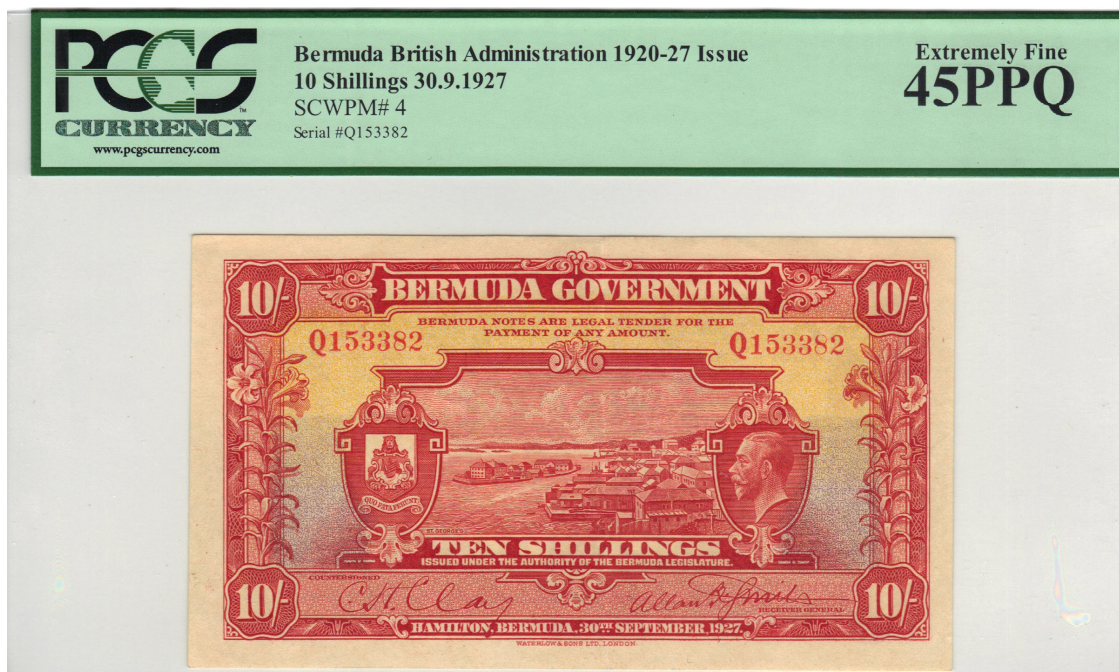

Our paper money section starts out with a rarity from Bermuda. These five shillings notes were the first in Bermuda to feature a portrait of King George V. This happens to be the highest graded note of only three that have been certified by PMG. PMG does mention "minor foreign substance," but that does little to offset the overall appeal of this early piece of Bermuda's financial history. It is even complete with the low and fancy serial number 00069. The standard price guide does not value a note in a grade higher than XF. Our estimate here could likely be quite conservative as chances to buy the best of the British Commonwealth are few and far between.

### Lot 134 - Bermuda 30th September 1927 10 Shillings (P4)

This is likely our favorite world note in tonight's offering. The colors on this King George V 1927 ten shillings note are amazing. Sometimes it is tough to believe that these were issued over eighty years ago. PCGS calls this an XF 45 with the premium paper quality designation and we couldn't agree more. We have scoured auction records to try and find an example superior to this one and we can't find any better. In today's market for rare, colorful, and important banknotes, we would not be surprised to see the estimate get topped here.

## Lot 135 - Bermuda 17th February 1947 1 Pound (P16)

This is a very high grade to encounter on a 1947 one pound note featuring a portrait of King George VI. This also happens to be the first of a consecutive pair of these notes offered for auction tonight. It is easy to see why this note earned such a high grade from PCGS. The margins are nearly perfect and the paper and colors are flawless. While this note as a type is not scarce, you will rarely have a chance to obtain such a nice example.

## Lot 136 - Bermuda 17th February 1947 1 Pound (P16)

The second of a consecutive pair of King George VI one pound Bermuda notes. Just like its mate, this example has sharp corners and paper as pure and clean as you will ever see on this issue. Put the consecutive pair back together and buy both lots, or settle for the choice uncirculated grade here. PCGS calls it a 64 and has given it the PPQ designation.

## Lot 137 - Bermuda 17th February 1947 5 Pounds (P17)

Five pounds was the highest denomination issued in Bermuda prior to 1964. This particular example dates to 1947 and has a portrait of King George VI. And don't let the fact this is from post-WWII fool you into thinking that this is a common note; that is not the case. Finding a nice example when you want one can be difficult. This note obviously saw a little bit of time in circulation. However, it retains all of the crispness and colors that you would expect in a much higher grade. This should be on some want lists.

## Lot 138 - British Guiana 2nd January 1918 \$1 (P1)

This is the earliest type of paper money issued in British Guiana while it was under British control. These are scarce banknotes and the grade here is about par for the course. We had a very difficult time finding comparable sales, but we feel like our estimate here should be about right.

**Grade:**

## Lot 139 - British Guiana 1st January 1942 \$2 (P13c)

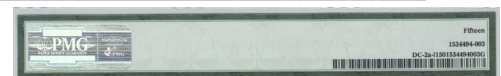

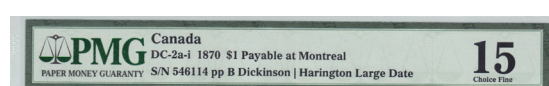

Toucan notes have a lot going for them. First off, you get a lovely engraving of a toucan, which is completely unique to British Guiana issues. There is also a touch of color to help the note have some extra pop. And it never hurts to have a portrait of King George VI. There is a very strong demand for mid-grade problem free notes like this. Price guides just can't keep up with this issue it seems. Similar examples regularly sell in our range listed here.

## Lot 141 - Dominion of Canada 1870 \$1 DC-2a-i

This is the earliest type of one dollar banknotes issued by The Dominion of Canada. It features one of the most frequently used portraits of Jacques Cartier. This note is payable at Montreal and features the scarcer large size date. The 2013 price guide suggests a value of \$2,400 in fine condition. Based on that info, our estimate here could be low by several hundred dollars.

## Lot 140 - British North Borneo Company 1st January 1936 \$1 (P28)

## Lot 145 - Bank of Canada 1935 \$50 BC-13

Don't let this one slip by you. This 1935 fifty dollar denomination banknote is scarce. Only 131,000 examples were printed! They all feature a portrait of George VI on the left hand side of the note. This particular example faces up as nicely as any VF 25 you will ever see. And while there is the tiniest of paper pulls on the back top center margin, it does absolutely nothing to diminish the rarity or desirability of this banknote.

This is far from the most valuable note in our auction, but this has to be one of our favorites. It dates to 1911 and was issued by The Bank of British North America. It has a portrait of Queen Mary. She was featured on several different Canadian banknotes; this is one of the more affordable ones. Only around 20 examples are known to exist today and the majority are in a similar condition.

There are no issued 1893 \$50 Canadian Bank of Commerce notes known to exist. I would say that you have to settle for a specimen, but owning this example would be far from settling. The colors on the front are absolutely as eye-catching as you will ever see on a Canadian banknote. The whole package is wrapped up with a custom vignette of the bank found on the back of the note. PCGS calls this one choice uncirculated with the premium paper quality designation.

**Lot 150 - The Merchants Bank of Canada  
Feb 1st 1906 \$5 - CH-460-16-02**

The Merchants Bank of Canada issued paper money between 1868 and 1923. Collectors who focus on this particular bank can tell you how challenging some of its issues can be to collect. The 1906 \$5 offered here has great colors for the grade. The portrait on the right hand side of the note is H. Montagu Allan; his signature also appears on these banknotes. We of course also have to mention the vignette of a beaver on the back of this example. How very Canadian.

## Lot 151 - The Molsons Bank

2nd January 1908 \$10 - CH-490-30-04

This is the first of three Molsons banknotes we are offering tonight. This particular example dates to 1908 and it is the higher of two denominations issued for that year. The right side of the note does have some discoloration and a couple of small holes (which are easier to observe on the back image).

## Lot 153 - The Molsons Bank

2nd July 1918 \$5 - CH-490-38-02

This banknote faces up like an XF with very bright colors and only a couple of corner folds evident. The back, however, has some distracting spots from where the note was likely removed from a frame. This is definitely one to keep in your single sided currency album. With that said, it is still a good deal even at the high end of the estimate.

**Grade:**

**Estimate:**

## Lot 152 - The Molsons Bank

3rd January 1916 \$10 - CH-490-36-02

The Molsons Bank only issued ten dollar banknotes dated as 1916. This is also a unique design showing a river and factories. So if you are putting together a year or design type set, then you need this banknote. The example here is clearly circulated, but it still maintains a fresh green color. It has a portrait of Sir William Molson Macpherson along with his signature.

**Grade:**

## Lot 154 - The Royal Bank of Canada

Jan 2nd 1909 \$5 - CH-630-10-04-06

This is the first of three notes we are offering from The Royal Bank of Canada. The catalog value of this 1909 \$5 in fine is \$1,500 and \$2,500 in VF (which is the grade a less conservative auctioneer might assign to this example). The back has what appears to be a contemporary inscription in pencil that could be easily removed should the next owner choose to do so. Around 30 notes of this type are known to exist today.

**Grade:**

**Lot 155 - The Royal Bank of Canada**  
**Jan 2nd 1909 \$20 - CH-630-10-04-22**

This is likely the rarest Canadian note we are offering for sale tonight. Right now we see only about a dozen pieces that are known to exist. The catalog value is \$4,500 in fine and \$7,500 in VF. This particular example faces up really nicely with its light blue color and lion vignette. The back has four sticky spots on the corners from where this note was removed from a frame. Of course, removing the glue residue is an easy and quick fix for the next owner.

**Lot 157 - The Bank of Toronto**  
**2nd Jan 1935 \$20 - CH-715-24-14**

This \$20 note is dated as 1935, but it has the look of a banknote from the late 19th century. In fact, the same design was used previously by The Bank of Toronto as early as 1880. The example here has a really soft center fold, hence the 58 exceptional paper quality grade. This is the highest denomination issued by this bank in 1935. As you might expect, that also makes it the most expensive denomination for the year.

This is a really lovely train note. It is from The Royal Bank of Canada and it dates to 1913. This example faces up like a really strong VF/XF note. The back has four sticky spots on the corners from an old framing. A paper money conservator could likely remove the residue for less than \$200.

Just based on the colors and the vignette, one could easily think that this was a mid to high four figure rarity. Fortunately for collectors though, there are enough 1912 \$10 notes from The Union Bank of Canada that these are not prohibitively expensive. The catalog value is \$1,050 in fine. You get a lot of bang for your buck at that price point.

## Lot 162 - Great Britain ND (1919) 4 Consecutive 1 Pound Notes (P357)

This is a really neat run of four consecutive 1919 one shilling notes. These all feature a portrait of King George VI. Each note has a very light corner bend and a very light spot of toning or two. Those are likely the only things keeping this from being a lot that sells for several thousand dollars. ## Lot 164 - Philippines 1st June 1896 5 Pesos (PA7)

If you keep up with early Philippine banknotes then you will know that this example is par for course. It didn't scan well, but the color and wear are very typical for this issue. It is on the low end of the VF spectrum, but still very acceptable for the grade. These are scarce notes that are usually only available once or twice a year at most.

## Lot 167 - Philippine Islands 1903 10 Silver Pesos (P27a)

1903 was the first year that The Philippines issued silver certificates. U.S. collectors love these banknotes because they were printed at The Bureau of Engraving and Printing in Washington, D.C. They are also all conveniently the same size as modern U.S. paper money. The example here is a nice fine with a slight bleed through, which is typical for the time period.

## Lot 190 - Fr. 96 1869 \$10 Legal Tender

Here is a perennial favorite. 1869 marks the first year that ten dollar legal tender notes featured a portrait of Daniel Webster. Of course, the real attraction is the vignette of the eagle. When turned upside down it unmistakably looks like the bust of a donkey, hence how it became known as the jackass note. The same design style would be used until the bison note was introduced. The example we are looking at here also happens to be from the rainbow family. This is an accurately graded VF that will likely happily be tucked away in a collection for years to come.

**Grade:** PCGS Very Fine 25  
**Estimate:** \$1600-2000

## Lot 188 - Fr. 73 1880 \$5 Legal Tender

This is a choice uncirculated 1880 \$5 woodchopper. A few years ago these were plentiful while The Atlantic Hoard was being dispersed. Now we are starting to see these less and less frequently as collectors are starting to remember that uncirculated banknotes from the 19th century should be worth a lot more than what these are trading for.

**Grade:** CU  
**Estimate:** \$1000-1500

## Lot 191 - Fr. 99 1878 \$10 Legal Tender

In terms of paper money, the 1878 ten dollar United States notes were only issued for a short period of time. This is a one year and one signature combination variety. Lots of collectors need an example of this banknote to complete several different types of collections. The example here is a problem free Fine 15 that looks like it has strong enough paper and colors to maybe even get a grade higher.

**Grade:** PMG Fine 15  
**Estimate:** \$800-1000

## Lot 189 - Fr. 91 1907 \$5 Legal Tender

This is an evenly circulated woodchopper showing Andrew Jackson and a pioneer family. PCGS notes stains on back.

**Grade:** PCGS Very Fine 25 Apparent  
**Estimate:** \$100-150

## Lot 192 - Fr. 113 1880 \$10 Legal Tender

There are lots of varieties of 1880 ten dollar legal tender notes. The example here is an Fr. 113, meaning it was signed by Lyons and Roberts. This is the last signature combination used on the jackass series. So while this is dated as 1880, it was actually probably printed closer to 1899. This particular note available for sale is VF with thick paper and far better than average margins.

**Grade:** VF  
**Estimate:** \$600-800

## Lot 193 - Fr. 120 1901 \$10 Legal Tender

I don't think you can call yourself a paper money collector if you don't have a bison in your collection. This example, despite being circulated, has an especially rich red overprint. That probably helped it achieve its Very Fine 25 grade.

**Grade:**  
PMG Very Fine 25

**Estimate:**  
\$800-1200

## Lot 195 - Fr. 123 1923 \$10 Legal Tender

The pokerchip is an absolutely quintessential type note for anyone looking to collect the major designs of United States currency. Nice looking examples never seem to be available when you want one, and when they are available, the price is usually marked way up (and buyers can still easily be found). This is a rare opportunity to buy one at auction without paying a dealer mark-up.

**Grade:**  
PCGS Fine 15

**Estimate:**  
\$2000-3000

## Lot 194 - Fr. 122 1901 \$10 Legal Tender

This is a very sharp looking 1901 bison (or buffalo) note. The note is clearly circulated, but the paper appears much brighter and stronger than most other Very Fine 20 notes you will see on the market today.

**Grade:**  
PCGS Very Fine 20

**Estimate:**  
\$600-1000

## Lot 196 - Fr. 127 1869 \$20 Legal Tender

We had a Fine 15 1869 \$20 rainbow sell for \$3,000 in our July auction. The example here is much nicer. PCGS has graded it as a Very Fine 30 noting restorations (which appear to be in the upper right margin). It is a rare treat to be able to offer such a rare type note in back to back auctions. Most collectors who choose to collect 1869 rainbow notes usually stop at the ten dollar denomination. Twenty dollar banknotes are just too difficult to locate and out of the budget of many collectors. Consider how much money twenty dollars represented just a few years after the civil war ended. These were issued during a time period when the general public overwhelmingly preferred coins, especially gold and silver coins, to paper money. Higher denominations like this were printed in limited quantities and they traded hands frequently as no one wanted to get stuck with the hot potato of a potentially valueless piece of paper. Those are the two main reasons why you see so few 1869 \$20 rainbow notes and why the ones that do exist are frequently very low grade.

**Grade:**  
PCGS Very Fine 30 Apparent

**Estimate:**  
\$5000-7000

## Lot 197 - Fr. 142 1880 \$20 Legal Tender

If you need an 1880 \$20 legal tender, but you don't want to break the bank, then this example might be for you. PCGS notes paperclip rust, which is not surprising for a note in this grade.

**Grade:** PCGS Fine 15 Apparent  
**Estimate:** \$250-350

## Lot 200 - Fr. 224 1896 \$1 Silver Certificate

This 1896 \$1 educational doesn't have any folds, but it does have a little bit of handling. It is certainly an acceptable example if you just want an uncirculated one dollar ed.

**Grade:** PMG Choice Uncirculated 63 Net  
**Estimate:** \$1000-1500

## Lot 198 - Fr. 217 1886 \$1 Silver Certificate

This 1886 ornate back Martha has very sharp corners and appears to be appropriately graded. It doesn't show any hard folds or distracting marks. This is the first U.S. banknote to solely feature the portrait of a woman.

**Grade:** PCGS Very Fine 30  
**Estimate:** \$600-800

## Lot 201 - Fr. 227 1899 \$1 Silver Certificate

This note begins a run of 6 uncirculated 1899 black eagles that have been tucked away since the 1920s. It looks like a tiny upper right corner tip fold might be keeping this one away from the gem grade that its mates received.

**Grade:** PMG Choice Uncirculated 64 EPQ  
**Estimate:** \$600-800

## Lot 199 - Fr. 224 1896 \$1 Silver Certificate

I really like the look of this \$1 educational. It clearly didn't see much time in circulation before it was tucked away. It is our opinion that this is one of the most beautiful U.S. banknotes that you can buy for less than \$1,000.

**Grade:** PCGS Very Fine 30  
**Estimate:** \$600-800

## Lot 202 - Fr. 227 1899 \$1 Silver Certificate

The second of six consecutive black eagles. Like the others in the run, this example is as nice and as fresh as they come.

**Grade:** PMG Gem Uncirculated 65 EPQ  
**Estimate:** \$700-900

## Lot 203 - Fr. 227 1899 \$1 Silver Certificate

The third of six consecutive black eagles. We were fortunate to handle these ungraded and we can attest to the amazing paper surfaces and pure gem quality.

**Grade:**  
PMG Gem Uncirculated 65 EPQ

**Estimate:**  
\$700-900

## Lot 206 - Fr. 227 1899 \$1 Silver Certificate

This is the last of six consecutive black eagles. This group was responsibly cared for for decades. None of the notes picked up the typical storage folds or toning that often comes with little runs like this.

**Grade:**  
PMG Gem Uncirculated 65 EPQ

**Estimate:**  
\$700-900

## Lot 204 - Fr. 227 1899 \$1 Silver Certificate

The fourth of six consecutive black eagles. Buy one for your type set or put together a consecutive pair or the entire run.

**Grade:**  
PMG Gem Uncirculated 65 EPQ

**Estimate:**  
\$700-900

## Lot 207 - Fr. 233 1899 \$1 Silver Certificate

This 1899 black eagle silver certificate has three vertical folds and one horizontal fold, along with the little bit of wear you expect to see on a Very Fine 30. If you are coming to the auction with \$200 to spend and want to leave with something to show off, then this note might be for you.

**Grade:**  
PCGS Very Fine 30

**Estimate:**  
\$160-200

## Lot 205 - Fr. 227 1899 \$1 Silver Certificate

The fifth of six consecutive black eagles. This example probably has the best front margins of the six notes.

**Grade:**  
PMG Gem Uncirculated 65 EPQ

**Estimate:**  
\$700-900

## Lot 208 - Fr. 238 1923 \$1 Silver Certificate

I can't ever imagine regretting owning a note like this. This is the last and usually the most affordable piece of large size currency issued by The United States. The example here traded hands just enough to pick up a fold.

**Grade:**  
PCGS About Uncirculated 58PPQ

**Estimate:**  
\$100-150

## Lot 209 - Fr. 240 1886 \$2 Silver Certificate

Hancock notes are not necessarily rare, but the example offered here is in a grade that can be surprisingly difficult to locate when you want one. CU examples sell for several thousand dollars, and there are plenty of rags on the market. A nice Fine is always in demand but not always in supply.

**Grade:**  
PCGS Fine 15

**Estimate:**  
\$600-1000

## Lot 212 - Fr. 248 1896 \$2 Silver Certificate

Two dollar notes have long been the favorite denomination of many collectors. There is so much variety out there, and nothing is prohibitively expensive. This 1896 \$2 silver certificate from the educational series is a textbook Fine. PMG notes foreign substance, but that should do little to deter you if you need a circulated example for your type set.

**Grade:**  
PMG Fine 15 Net

**Estimate:**  
\$800-1000

## Lot 210 - Fr. 246 1891 \$2 Silver Certificate

Sharp corners and evenly spaced margins are the highlights on this Windom \$2 silver certificate. We feel this should land on the lower end of the Very Fine grade.

**Grade:**  
VF

**Estimate:**  
\$500-700

## Lot 213 - Fr. 248 1896 \$2 Silver Certificate

We have a feeling that someone is going to be very pleased with this purchase. The embossing on this 1896 \$2 educational is amazing. It looks like it was printed this morning. The paper is lovely and the margins are gem quality. This note has been in a private collection since it was purchased from a 1980 fixed price list. It is from a run of uncirculated notes, many of which have since graded as Gem Uncirculated. This example picked up a small spot of discoloration on its back. That is the only thing keeping this note from the 66/67 grade range.

**Grade:**  
PCGS Choice New 64 Apparent

**Estimate:**  
\$8000-10000

## Lot 211 - Fr. 247 1896 \$2 Silver Certificate

The red seal is a touch light on this 1896 \$2 educational. Other than that, we can find absolutely nothing negative to say about this specimen. The paper is thick, crispy, and can still easily hold a fold. The back also has that traditional dark rich green that we expect to see on these issues. This is a solid Very Fine.

**Grade:**  
VF

**Estimate:**  
\$1000-1200

## Lot 214 - Fr. 256\* 1899 \$2 Silver Certificate

This note is new to the census and it is now the highest serial number 256 star documented. PMG has graded it as Fine 12 and has noted internal tears.

**Grade:**  
PMG Fine 12 Net

**Estimate:**  
\$500-750

## Lot 215 - Fr. 258 1899 \$2 Silver Certificate

This note should appeal to lots of collectors like the two dollar specialists, the silver certificate guys, nickname collectors, or the Washington enthusiasts. This has been graded as a Very Fine 25 by PCGS, and like many other notes from this collection, it is a premium example for the number.

**Grade:**  
PCGS Very Fine 25

**Estimate:**  
\$300-400

## Lot 217 - Fr. 270 1896 \$5 Silver Certificate

The market just keeps advancing for all 1896 \$5 silver certificates. The educational series has never been more popular than it is today and there just isn't enough supply to go around. The example offered here shows a few more folds on the back than the front. It clearly meets all of the qualifications for us to confidently call it Very Fine. I would not be shocked to see such a popular note with this type of eye appeal exceed the estimate listed here.

**Grade:**  
VF

**Estimate:**  
\$2400-3000

## Lot 216 - Fr. 261 1886 \$5 Silver Certificate

Our July auction had an 1886 five dollar morgan back that sold for \$1,680. While technically the same grade, both Fine 15s, the example offered tonight is far superior in terms of eye appeal, color, and originality. We would expect this one to sell for closer to the high end of the estimate.

## Lot 218 - Fr. 269 & 270 1896 \$5 Silver Certificates

This is an evenly matched pair of 1896 \$5 silver certificates. Both are in the G/VG range. Please note the margins and both the front and back images. Buy one for yourself and one for trade. You are every dealer's best friend when you walk into a coin show with a five dollar ed in hand.

## Lot 219 - Fr. 279 & 281 1899 \$5 Silver Certificates

We are going to call both of these chiefs Fine, but we could easily see them in a VF 20 holder. Both notes are problem free and look as nice in hand as they are presented here. This is a great lot for dealer stock or cross two Fr numbers off your list with one purchase.

**Grade:**

**Estimate:**

## Lot 221 - Fr. 281 1899 \$5 Silver Certificate

This is the highest graded of the four chiefs in this auction. However, it is still very attainable and there is no reserve beyond the paltry opening bid of \$400.

**Grade:**  
PMG Very Fine 30

**Estimate:**  
\$800-1200

## Lot 220 - Fr. 281 1899 \$5 Silver Certificate

The PCGS grade here is technically correct, but let's focus on the positives. This 1899 \$5 chief still has a very strong blue overprint and the engravings are just as vivid as you will see on any VF note.

**Grade:**

## Lot 222 - Fr. 282 1923 \$5 Silver Certificate

No auction would be complete without offering a 1923 \$5 porthole silver certificate. And everyone in the room tonight should be a player for this one. This is a problem free, comment free, absolutely lovely Very Fine example. Prices for these get very steep, very quickly once you get past VF. This has plenty of eye appeal for the price.

## Lot 223 - Fr. 304 1908 \$10 Silver Certificate

This might be the proverbial "sleeper" of the auction. Shooting from the hip, I would guess that maybe 1 in 40 VF 1908 \$10 tombstones has a chance at earning the coveted PPQ designation. I don't know why, but this series just always seems to pick up a split, pinhole, foreign substance, or any of the other small maladies that keep away the PPQ qualifier. Mid-grade PPQ notes will likely only get scarcer as time goes by and there is more motivation to cut out and try to improve nice original notes like this.

**Grade:**

PCGS Very Fine 25PPQ

**Estimate:**

## Lot 224 - Fr. 309 1880 \$20 Silver Certificate

We are excited to be able to offer this 1880 \$20 silver certificate. The United States didn't issue silver certificate until 1878, and all denominations from that year are extremely scarce. If you keep up with the series at all then you will know that the PCGS VF 20 offered here is about as nice as you can hope to find without getting into the five figure mark. And don't let the PCGS comment of repairs scare you. A quick glance at the population report shows that 9 of the 15 Fr. 309s that have been graded have been apparent grades. It is absolutely par for the course and does nothing to take away from this rare souvenir of our financial history.

## Lot 225 - Fr. 321 1891 \$20 Silver Certificate

The Manning silver certificates are just one of those classically exotic issues that you don't see every day, but that are still reasonably affordable (for the time being at least). The example we are looking at here is in Very Fine condition. It faces up really nicely and proudly shows off the blue overprint that we now exclusively associate with silver certificates.

## Lot 226 - Fr. 347 1890 \$1 Treasury Note

## Lot 229 - Fr. 357 1891 \$2 Treasury Note

Notes like this are a good reminder of the "rag" paper used to print large sized US currency. The back of this 1891 \$2 McPherson note is full of red and blue fibers. They are very sharp and not blurred; this is a good sign that this note hasn't been washed or tampered with. It is a nice pleasing VF.

## Lot 227 - Fr. 347 1890 \$1 Treasury Note

## Lot 230 - Fr. 363 1891 \$5 Treasury Note

I am not sure that a figure more stern than General George Thomas has been pictured on United States currency. The Rock of Chickamauga, as he was nicknamed, obviously took his image very seriously. The banknote that we are looking at here has a few folds that can be seen when held to the light, as is standard for a VF 35.

**Grade:**  
PCGS Very Fine 35

**Estimate:**

## Lot 228 - Fr. 351 1891 \$1 Treasury Note

One dollar 1891 treasury notes are a great example of history in your hand. You get to hold a piece of paper money that was issued before The Federal Reserve System existed but during a time when Edwin Stanton was still a recognizable public figure. You get all of that for less than the price of a set of new tires. We are lucky that for a relatively small amount of money we can buy great banknotes like this three-fold XF. Treasury notes were only issued in 1890 and 1891 and the example here is perfectly acceptable if you are looking for an eye-appealing note without the CU price tag.

## Lot 239 - Fr. 953a 1914 \$20 Federal Reserve Note

**Grade:** PCGS Very Fine 20 **Estimate:** \$500-700

## Lot 237 - Fr. 863a 1914 \$5 Federal Reserve Note

**Grade:** PCGS Very Fine 35 **Estimate:** \$120-180

## Lot 238 - Fr. 930 1914 \$10 Federal Reserve Note

We are starting to see the market for uncirculated large size blue seal FRNs get really hot. ## Lot 241 - Fr. 1046\* 1914 \$50 Federal Reserve Note Star

At last count there were just over a couple dozen 1914 \$50 federal reserve star notes from all issuing districts combined. The example here is just one of three from the Richmond district. Based on observed serial number ranges, it is safe to assume that less than 40,000 1914 \$50 stars were issued from all districts combined. That assumption is also supported by standard survival rates. The example offered here is one of just three two digit serial numbers known to exist from all districts. No matter how you slice it, this is a very rare item. We are starting to see large size high denomination stars get appreciated for their true rarity, but the market still has plenty of room to advance. We think our estimate here is very reasonable and possibly even conservative.

Problem free VF 1914 \$50 blue seal federal reserve notes are not as available as you might think. This denomination was a real workhorse back when these originally circulated. Most examples you see today tend to be low grade. This one from the Chicago district is a problem free VF 35.

## Lot 250 - Fr. 1200 1922 \$50 Gold Certificate

Today we closely associate Ulysses Grant with the \$50 bill. However, he was not actually pictured on that denomination until gold certificates were issued in 1913. This note, dated as 1922, has the same design as the first \$50 notes to feature his portrait. So if you need a historical reason to buy this banknote, then that is a great excuse. If you like bright and attractive type notes, then the picture here should do all the convincing.

**Grade:**

## Lot 249 - Fr. 1197 1882 \$50 Gold Certificate

Here is a large size 1882 \$50 gold certificate with the Napier and McClung signature combination and a scalloped red seal. This is just a great type note. Very few large size fifty dollar banknotes issued during the 19th century can be bought for just a few thousand dollars. The example we are looking at here is in VF condition. It is worth noting that the backs of many of these issues faded very easily. This one is especially dark with absolutely no sign of discoloration.

**Grade:**

**Estimate:**  
\$2000-3000

## Lot 251 - Fr. 1215\* 1922 \$100 Gold Certificate

One hundred dollar gold certificates from 1922 are scarce enough in their own right. The one we are offering here is a replacement star and just one of around 27 that are known to exist. High denomination notes from this time period often picked up a tear or other condition issue from either trading hands frequently or from being secreted away in an environmentally unfriendly place. It should not come as a surprise that a small repair was necessary to get this specimen to be as attractive as it is today.

### Lot 253 - Group Lot: 17 Large Size US Banknotes

This group lot is chock full of mostly VG to VF large size type. There are 17 notes total. All are pictured with full front and back scans online. This is a great group for a dealer or for someone looking to get a lot for a little. The group contains: 1918 \$1 FRBN, 1923 \$1 silver certificate, 1891 \$2 silver certificate, 1917 \$2 legal tender, (2) 1899 \$1 silver certificates, (2) 1891 \$1 treasury notes, (4) 1917 \$1 legal tenders, 1914 \$50 FRN, (2) 1896 \$1 silver certificates, and a 1922 \$20 gold certificate.

**Grade:**

**Estimate:**

### Lot 256 - Fr. 1500 1928 \$1 Legal Tender

As is typical for the issue, this 1928 \$1 legal tender has some tight margins. Hopefully the low three digit serial number will help make up for that fact. This note is CU with no folds.

**Grade:**  
CU

**Estimate:**  
\$300-400

### Lot 254 - Group Lot: 4 1928 US Banknotes

Each of these four notes, a 1600 1928 \$1 silver, a 1501 1928 \$2 legal tender, a 1950-D 1928 \$5 Cleveland federal reserve note, and a 2000-D 1928 \$10 Cleveland federal reserve note are all technically uncirculated. It is our understanding that these were part of a bank display in 1928 that showed customers what the new small size currency looked like. The green seals even have fairly low serial numbers. The back of each note does show some mounting remnants on the corners.

**Grade:**  
CU

**Estimate:**  
\$300-500

### Lot 257 - Fr. 1500 1928 \$1 Legal Tender

This is a fresh uncirculated 1928 \$1 red seal. This is a one year design type and these are always very popular.

## Lot 259 - Fr. 1500\* 1928 \$1 Legal Tender Star

A quick study of the small size guide will show you just how rare these are. The 10th edition prices these at \$2,500 in VG. Just finding any example can be difficult. A few notes that grade 64 or higher can occasionally be bought for \$20,000 or more. Locating a circulated example for a reasonable price is very difficult. Don't miss your chance here. This one grades VG and is fully intact.

**Grade:**

## Lot 262 - Fr. 1536 1963 Full Pack \$5 Legal Tenders 100 Consecutive

It looks like a literal handful of notes in this pack have corner tip bumps or folds. The vast majority of notes in the pack are CU or better. You won't see as many packs of \$5 red seals as you do the two lower denominations. Even in 1963, \$500 was a lot of money to tie up for the sake of having cash on hand.

**Grade:**  
CU

**Estimate:**  
\$2000-3000

## Lot 260 - Fr. 1513 1963 Full Pack \$2 Legal Tenders 100 Consecutive

Original packs are one of the few numismatic items that will likely continue to only get rarer as time passes. Too many people are tempted to break up the packs to sell off smaller runs or to get the best notes graded searching for registry material homeruns. This pack is as it looks with no surprises. The centering is mostly gem.

**Grade:**

**Estimate:**  
\$1800-2500

## Lot 263 - Fr. 1550 1966 \$100 Legal Tender

We always like being able to offer a 1966 red seal \$100 in every auction. These were the last banknotes issued by The United States without the now standard green seal. Only 768,000 regular issue 1966 \$100 red seals were printed! The example here is gem uncirculated and it looks every bit of the part.

## Lot 270 - Fr. 1902-E 1963B \$1

### 5 Full Packs 500 Consecutive Barr Notes

Joseph Barr was only the Secretary of the Treasury for 28 days. His signature appears solely on 1963B \$1 notes. These are not uncommon notes, but it is very unusual to see five consecutive packs for a run of 500 notes. As you would expect, a few notes at the beginning and end of the packs have picked up some handling. This is a really cool set that should certainly have room to appreciate in value.

**Grade:**

## Lot 273 - Fr. 1926-A 2001 \$1 Inverted Reverse Error

## Lot 275 - Fr. 1950-E

### 1928 \$5 Serial #12 Richmond Federal Reserve Note

We were unable to find any documented serial numbers as low as this 1928 \$5 FRN from the Richmond district. In fact, this number is so low that it is from the first sheet of currency issued for the denomination for The Richmond Federal Reserve District. Someone obviously realized the importance of this note and put it in a frame. So it does have some adhesive on each side margin. Otherwise the note is fully intact VF.

## Lot 279 - Fr. 1958-E\* 1934B \$5 Richmond Federal Reserve Note Star UNIQUE

At first glance this might not catch your eye, but the star specialists out there will immediately recognize this note for what it is. When this first came across our desk it had all the symptoms of being a unique find. No serial number data or value was listed in the standard price guide. We couldn't find any auction results. The grading services had also not certified any examples of this Friedberg number. Since then we have been able to confirm that this is a completely unique note. It is the only 1934B \$5 star note known to exist for the Richmond district. It was part of the Myers Park cash hoard that produced a lot of the other Richmond notes offered for sale tonight. Of course this is the absolute highlight of that cache. This accidental survivor now gets to be the highlight of a collection and a key to a series that is hotly contested.

## Lot 281 - Group Lot: 1963-E 1950B \$5 Richmond Federal Reserve Notes (95)

This lot is made up of runs of consecutive notes totaling 95 (but not all sequential). Most are CU/Gem. It looks like 15 or so have a crimp from being in a paper clip.

## Lot 283 - Fr. 1975-L 1977A \$5 Mismatched Serial Number Error

You don't have to be a seasoned expert to appreciate that this is a special note. Mismatched serial number errors often trade hands frequently before a sharp eye notices the misprint. This note was obviously immediately tucked away and it was lucky enough to be printed with the margins to obtain the superb gem grade.

## Lot 284 - Fr. 1979-E 1988

### \$5 Inverted Third Print Error

The last note in this run of three Richmond FRNs happens to be a type II inverted third overprint. The 3rd edition of the error guide lists a value of \$850 in CU condition. So our estimate here might be a touch conservative. Only one of the three pictured notes contains the error, but the fact that the two notes preceding the error exist is a good testament to the fact that this is a CU note.

## Lot 287 - Group Lot: Fr. 2013-E 1950C

### \$10 Richmond Federal Reserve Notes (45)

There is a 50 serial number range here with 5 notes missing at random intervals. All the notes should be between the 63 and 65 grades. And with an opening price of face value, there really isn't much risk here.

**Grade:**

## Lot 288 - Fr. 2033-K 1999 \$10 Serial #1 Federal Reserve Note

Serial number one ten dollar modern federal reserve notes are difficult items to locate. This design type was only used on 1999, 2001, and 2003. While this is a lightly circulated VF, it has a lot of pop and color. And our paltry opening bid of \$3,000 should be very attractive.

### \$500 Atlanta Federal Reserve Note

Our consignor tells us that these are the last of a run of ten consecutive \$500 notes that came out of a safety deposit box find in Georgia in the 1990s. We don't have any reason to doubt that. Both notes have great centering and a minor center fold/bend that likely came from where a large wad of cash was folded in two for many years.

## Lot 299 - Fr. 2211-E 1934 \$1000 Richmond Federal Reserve Note

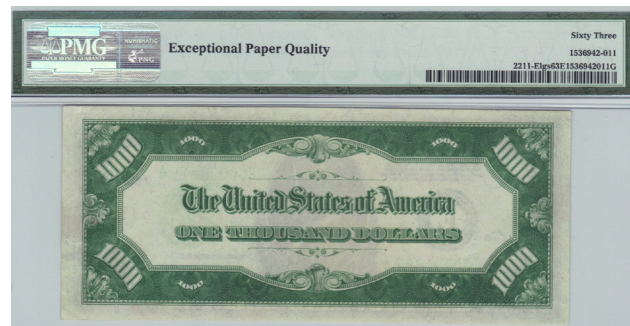

This 1934 Richmond light green seal (LGS) \$1000 is also from the Myers Park cash hoard that produced so many interesting FRN finds tonight. The bottom right corner has the tiniest of folds (nowhere close to the design). In our opinion that is the only thing keeping this from a grade of 64 or 65. So buy this note as a 63 and save the extra \$10,000 that a 65 would cost, because at two feet away I can't tell the difference.

## Lot 305 - Fr. 2309 1934A \$10 North Africa

This note has a single light vertical bend. It's an all day AU.

## Lot 306 - Fr. 2309\* 1934A \$10 North Africa Star

This note scanned out so that it looks AU. It is actually just a super fresh VF (also from the Myers Park cash hoard). North Africa stars are a popular area to collect. We are predicting that a note this pretty should sell strong.

## Lot 308 - Fr. 2400 1928 \$10 Gold Certificate

These are such fun type notes. I think at one point we have all put together a seal color set and it can be tough to find a nice gold seal with great eye appeal that doesn't break the bank. The example here is a bright and white AU that should work well in your set no matter the focus.

## Lot 310 - Fr. 2404 1928 \$50 Gold Certificate

This is a sharp looking all day long AU 1928 \$50 gold. The center fold is just barely visible on the back of the note. The front to back registration is also extremely nice.

**Grade:**

## Lot 309 - Fr. 2402 1928 \$20 Gold Certificate

It looks like a lower right corner fold that is barely into the design is the only thing keeping this from a higher grade. The EPQ designator makes this pretty much worth the same as a flat 63 or 64 on most occasions.

**Grade:**

## Lot 311 - Fr. 2405 1928 \$100 Gold Certificate

Dealers, you know that having a note like this in your case will start a few conversations. It is pretty enough, scarce enough, and attainable enough, that plenty of eyeballs will be drawn to it and know exactly what it is. Collectors, don't let the dealers make money off you later on. Pick this out of the auction and tuck it away for a decade or two.

#### Lot 314 - Prescott, AZ - Ch. 13262 - \$5 1929 Type2

The First National Bank in Prescott, Arizona was open for just over four years. It only issued small size notes. The census stands at 14 notes total. Six of those notes are a sheet of #1s that is locked up in an estate and likely to never hit the market. Another six notes are from a cut sheet of number one notes. A single #1 from the cut sheet has appeared at auction before. It was a poorly centered CU that sold for more than \$15,000 during the doldrums of 2012. The other two notes are both circulated VFs; despite their condition, one of them still sold for \$9,600 in 2009. The serial number two note we are offering is a fresh discovery directly out of Arizona. This note is CU with absolutely no folds and all the surfaces are completely original with deep embossing. Our estimate on this one is very defensible and could easily be topped.

## Lot 318 - Killingly, CT - Ch. 450 - \$1 Original Series Ace

This is a pleasant VF with delicately penned signatures. It appears to be printed on blue end paper. This ace is from the bank's first title which was used from its incorporation in 1864 until 1884. We can further narrow the issue date on this example to between 1875 and 1878.

## Lot 316 - La Junta, CO - Ch. 4507 - \$10 1929 Type2

This is one of just 160 type2 tens issued by The First National Bank of La Junta, Colorado. And it happens to be a real peach. There are just 12 small size notes known for the bank, and this would be in the top third of that population.

## Lot 317 - Rocky Ford, CO - Ch. 9117 - \$10 1929 Type1

Rocky Ford seems like an appropriately named town for Colorado; it is certainly very evocative of the old west. The note we are offering here is XF. That should make it the second or third nicest note of the 20 small notes known for the bank. The back does have a couple of blotches, possibly from the printing process.

## Lot 320 - Macon, GA - Ch. 8365 - \$10 1902 Red Seal

This Macon note is much nicer looking than your typical Georgia red seal. The paper looks perfect for the grade and I love it when the red seal shows just a hint of pink. Some of the best red seals we have handled had this exact coloring.

## Lot 321 - Madison, GA - Ch. 7300 - \$20 1929 Type1

I feel bad for the collectors of Georgia nationals. They so rarely have the chance to buy anything high grade or rare. While small size 1929 notes from Madison are not especially scarce, it is very unusual to see any consecutive numbered notes from a small Southern town.

If you are working on a state blue seal set or just want a pretty territorial, then you are going to have a tough time doing much better than this plain back from Honolulu. The grade speaks volumes. We can further confirm that this example is free of any hard folds. It has better than average centering. The cashier and president signatures are boldly stamped in black ink.

## Lot 324 - Stewardson, IL - Ch. 9438 - \$20 1902 Blue Seal

Illinois collectors take note. This is a rare offering. This is one of just two notes known to exist for the town of Stewardson. The other is a ten and it is in an apparent 15 holder. This is a problem free VF that is worth a premium bid.

## Lot 325 - Cambridge City, IN - Ch. 8871 - \$10 1902 Blue Seal

A red seal from Cambridge City sold for \$9,200 back in June. While the blue seal offered here isn't going to scare that price, it is a good testament to the fact that people are collecting notes from this locale. This note is problem free and it has purple signatures that further enhance the pop of the blue seal.

## Lot 326 - Lowell, IN - Ch. 5931 - \$10 1882 Brown Back

Prior to this discovery, which is making its first appearance tonight, there was a single \$20 brown back to represent the first title of this Lowell bank. That twenty is listed as VG-F and it has no auction history. So this is the first chance for collectors of the Hoosier state to cross this title off their list. And if you don't care about titles, it should be mentioned that this is still the most desirable note on the charter. It is solidly VF and faces up nicely thanks to bold signatures. It does have a small staple hole in the very far left of the design.

Estimate:

\$5000-7000

## Lot 327 - Seymour, IN - Ch. 1032 - \$5 1882 Brown Back

This note goes beyond number known and technical grades. This is a piece of local history. This was just discovered and consigned to us and we couldn't be more excited to have a chance to write it up. The bottom selvage contains the inscription: "Presented to Emma Thompson by her father the day he signed the notes to make them negotiable Aug 12 1885." After some sleuthing, we found that John H. Blish, born in 1822, had a married daughter named Emma Thompson who would have been 27 years old the day she received this keepsake. Based on the fact that Blish is signing here as a vice-president, we can jump to the conclusion that signing notes may not have been a privilege of his often and perhaps he was very proud of this occasion, thus the wonderful souvenir we have today. The note obviously never circulated, but it did pick up three vertical folds in the past 130 years. It is the first five dollar brown back reported for the bank. If you collect currency then you know an inscription like this is special. Bid what you think it is worth because a note like this won't be available again any time soon.

## Lot 328 - Garden City, KS - Ch. 3448 - \$5 1882 Brown Back

This was a last minute consignment. The consignor's father ran a furniture shop in Arizona. And according to her, this was used by a customer at face value back in the 1970s and it was displayed in the shop until it made its way here. The margins are cut a little close, but it doesn't show any damage from being framed. It is toned and has a tiny nick out of the top margin. This is by far the nicest and most interesting of five large notes known from The First National Bank of Garden City in Kansas. Having the bottom selvage is always a bonus.

## Lot 329 - Longton, KS - Ch. 8525 - \$10 1902 Red Seal

The term "miracle of survival" gets kicked around a lot and is sometimes overused. However, it applies here. This bank issued 250 sheets of red seals and just 11 sheets of blue seals before shutting down shop in the summer of 1909. That's a total of only 1,044 notes, all issued more than a century ago. Not surprisingly, before this discovery, there were exactly zero survivors reported for the bank. The condition obviously is not ideal. The note has some residue on the left margin. There is also a half inch internal tear at center. The note is otherwise fully intact and actually has two decent signatures hidden behind the circulation. If you need this one, then buy it, because odds are that there will not be any more opportunities after tonight.

There are just three other original series notes known to exist from this bank. All are in lower grades than this pleasing fine. It is interesting to note that the only lazy deuce from the bank happens to be from the same sheet of currency as this ace. ## Lot 338 - Fall River, MA - Ch. 256 - \$10 Original Series #1

This is the hands down standout from a group of three Fall River notes that were consigned to us for this auction. I don't even know where to start with this one. First off, you just simply don't see original series first charter tens in this condition. PCGS calls it about uncirculated 58 PPQ. We had the note raw and didn't see any folds, and we still can't see any folds through the holder. This happens to be the only 409a that PCGS has listed in their population report. PMG doesn't even have a category for the 409a, which is in fact a relatively new classification that applies to original series tens without a charter number but with red serial numbers. So if you are collecting by type or by Friedberg number, you will have an extremely difficult time finding a better example than what we are offering here. With that said, the most exciting thing about this note has yet to be mentioned. It is a serial number one! We know that this note was issued early in 1864. It dates to the same time period as some of the most illustrious and important banknotes in all of numismatics. There are only nine serial number one original series tens known to exist from all banks in the country combined. One of those is extremely low grade, and three haven't been seen since the Grinnell auction in 1946. A note like this has not been offered for sale in the modern post-2000 market. The note is estimated at a price that should be very attractive even at the high end and beyond.

## Lot 339 - Fall River, MA - Ch. 256 - \$5 1882 Brown Back

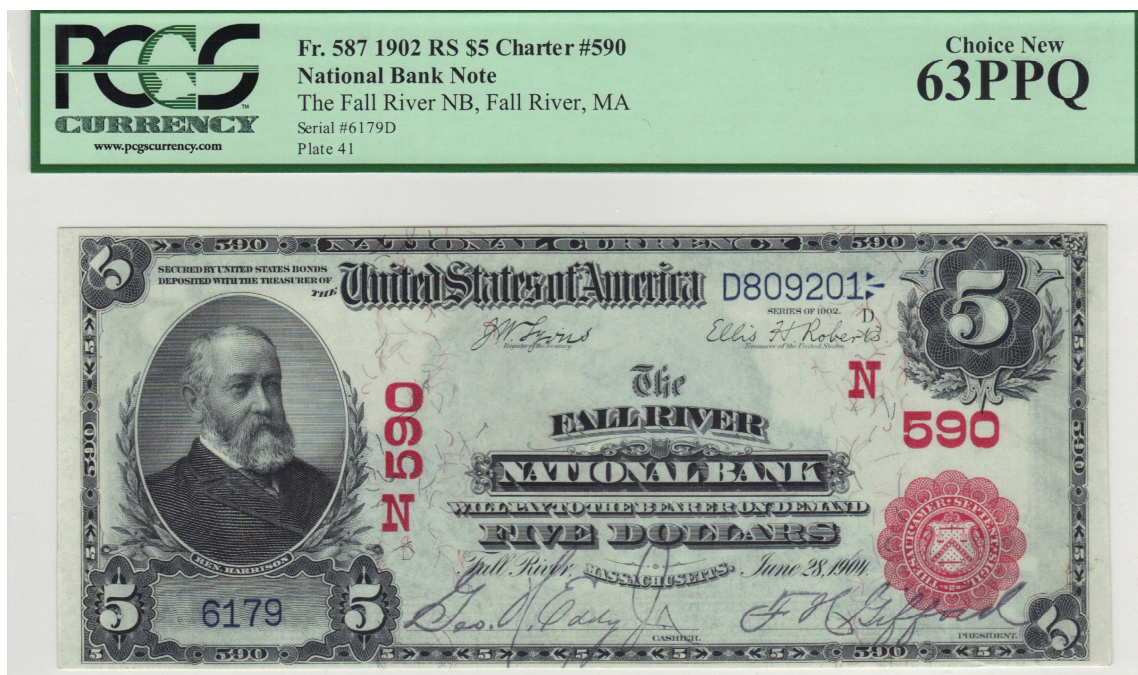

This note has a lot going for it. Of course the grade is very impressive. Gem uncirculated brown backs are available a few times a year, but they are usually from hoard banks. If you are collecting the type and don't want a hoard note, then this would likely be a good fit. It is also interesting to note that the president, JS Brayton, was the uncle of axe murderer Lizzie Borden, Fall River's most infamous past resident.

This is the discovery red seal for charter number 590. The Fall River National Bank only issued red seals between 1904 and 1908. This is an excellent example to be unique for the type. Of course the PPQ designation speaks for itself, but we can attest to the fact that this note is wildly original with cavernous embossing.

## Lot 341 - Middleborough, MA - Ch. 3994 - \$5 1882 Brown Back

There was only one national bank in Middleborough. It was open from 1889 until 1916. The five dollar brown back being offered here brings the census for the bank to a total of five notes. This is the first time a note from Middleborough has been offered for sale since 1990. So an entire generation of collectors has never had a chance to add this Plymouth County town to their holdings. The note is an absolute peach. It has no condition issues, not even a pinhole to speak of. The pen signatures are perfect as well.

## Lot 342 - North Attleborough, MA - Ch. 3365 - \$5 1882 Brown Back

This 1882 \$5 brown back is from the first national bank in North Attleborough that issued national banknotes. It did so from 1885 until 1905. There is only one other note from this bank known to exist. It is also a five dollar brown back. It is listed as being in fine condition and it has no auction results. The note we are offering tonight is lovely. It is directly from the family of the cashier and it is making its first appearance to the numismatic community. For the record, the white area on the face is not a paper pull. It appears to be paper left behind from another source. The banknote itself is fully intact and I would wager that the distracting white substance could easily be removed by a professional restorer. Don't let that bother you though. This note is rare enough that even if it were a paper pull this note would still easily be worth a price in the high end of our range.

In a perfect numismatic world we wouldn't be able to offer an uncirculated sheet of 1902 blue seals with an estimate of just \$4,500 to \$6,000. With that said, no market is perfect and we feel like collectors have yet to start paying appropriate premiums for what sheets should really be worth. This blue seal sheet is absolutely beautiful. We of course know that sheets of currency never circulated. However, it has been our experience, that due to their bulkiness, sheets rarely stand the test of time without getting rust, splits, or other damage. These problems usually occur as a result of someone trying to make a large sheet fit in a small place. The sheet we are offering tonight is free of those plaguing issues and has even earned the coveted premium paper quality designation.

Today there are far more players for good Minnesota national banknotes and I would wager that the next chance to obtain one of these won't be for many years to come. ## Lot 347 - Blackduck, MN - Ch. 9147 - \$10 1902 Blue Seal

Minnesota is known for its fancifully named towns. Blackduck has to be right up towards the top of the list when it comes to interesting locations. The town was founded in 1900 as a logging community. The national bank would not be organized until 1908. It would close in 1925. Today Blackduck has a population of just 785 people. The note we are looking at here has great signatures and color. A VF from this one bank town sold for \$12,650 in June. Based on that result, the estimate here could be conservative.

## Lot 349 - South St. Paul, MN - Ch. 6732 - \$10 1902 Red Seal

There are a lot of really great notes in tonight's auction, but this one might be the absolute sexiest. If your focus is the best from Minnesota, then please take note of this beautiful red seal. I have handled a lot of red seals, and I don't recall ever seeing a richer red on such white paper. The signatures are immaculate. Even the bank's title is spot on. An Armour meat packing building opened in South St. Paul in 1919 and for sixty years it was the largest building in Minnesota. The stockyards came to South St. Paul in 1886 and obviously by 1903, the bank's charter date, the industry was important enough to be included in the name of the town's sole national bank. I guess the bank founders were excited about their new venture, because this red seal is reported to be directly from one of the banking families. It turned up in an estate in the Midwest and was consigned to our sale. Another serial #1 \$10 red seal is listed in the census. However, it has no auction results or discovery story associated with it. This is of course far and away the best note ever to be offered for sale from South St. Paul. For the record, we are calling this AU+ only in the interest of absolute conservatism. There are certainly no folds and the only signs of handling are a few bends in the margins. According to our records, this is the highest grade #1 red seal from Minnesota to EVER be offered for sale publicly.

## Lot 350 - Spring Valley, MN - Ch. 6316 - \$20 1902 Blue Seal

Blue pen signatures are the highlight on this \$20 blue seal from Spring Valley. Just eight other large notes are reported for the bank. Our estimate seems very low considering the Kelly premium in fine is \$1,500.

**Grade:**  
Fine

**Estimate:**  
\$750-1250

## Lot 352 - Polson, MT - Ch. 9449 - \$10 1902 Blue Seal

The First National Bank of Polson was the only currency issuing bank in this Lake County town. The total number of pieces known to exist today now stands at just five. That simply isn't enough to satisfy all of the collectors out in Big Sky country. The note here is on the lower end of the fine scale, but it is perfect if you need the town for your collection.

**Grade:**  
Fine

**Estimate:**  
\$4000-6000

## Lot 351 - Chillicothe, MO - Ch. 3686 - \$20 1929 Type1

Before this run of five consecutive 1929 \$20s surfaced, there were just six type1 \$20s on the bank. This addition of five brings the total small size county to just 20. Each of these notes has two vertical folds. These are as fresh as they come. A single XF \$20 sold for \$800 in 2004. So our estimate certainly seems achievable and then some.

**Grade:**  
XF+

**Estimate:**  
\$2400-3000

## Lot 353 - Fullerton, NE - Ch. 2964 - \$10 1902 Red Seal

Fullerton, Nebraska only had two national banks. The First National Bank was the only one of the two that printed 1902 red seals. The note being offered here is the only red seal from the bank and it also represents the earliest known survivor from either institution. The back does have a couple of dime size black ink spots, but the lovely signatures on the front more than make up for that shortcoming.

**Grade:**  
Fine

**Estimate:**  
\$3000-4000

## Lot 354 - Ely, NV - Ch. 8561 - \$10 1902 Blue Seal

It is a rare treat to be able to offer any large size Nevada national bank note from a bank other than Reno. There are currently only around 14 blue seals known to exist from Ely. And while this is in the middle of the pack in terms of its technical grade, the fact that it has lovely purple stamped signatures certainly ups the appeal. This was the highlight of a small American cash hoard recently found in Lithuania. I believe the blue inked "6334" on the reverse is a chop mark of sorts. We have seen similar markings on other U.S. banknotes found in Europe. The Kelly guide suggests a value of \$20,000 in fine condition.

**Grade:**  
Fine

**Estimate:**  
\$12000-20000

National  
Bank Notes

## Lot 355 - Groveton, NH - Ch. 1929 - \$10 1929 Type1

People must really like national banknotes from Groveton. And those buyers probably aren't in Groveton, as the population is just 1,100 today. The last two auction results for notes in VF and XF both topped \$3,000. The note we are offering here is a VF with about a quarter inch tear at the right margin.

Grade:  
VF

Estimate:  
\$2000-3000

## Lot 356 - Lancaster, NH - Ch. 2600 - \$5 1902 Blue Seal

There are 16 blue seals listed as being from charter 2600 in Lancaster, NH. Of those 16, none even come close to the condition of the choice AU we are offering tonight. And the best part is, with an opening bid of \$750, any collector can afford to splurge on this upgrade.

Estimate:

## Lot 357 - Arlington, NJ - Ch. 8627 - \$5 1902 Red Seal

This Hudson County New Jersey red seal turned up just 100 miles down the road in Columbia, SC. How it made it from North Jersey to the Palmetto state is anyone's guess; but that is the great thing about national currency, it can show up anywhere. If you look in the census you will see a \$5, \$10, and \$20 #1 red seal listed for this bank. It is our understanding that while these notes do exist, they are not held by collectors and are likely to never be available for sale. The good news is that this serial #7 three fold XF is very much available and will be sold to the highest bidder tonight. This is of course by far the most interesting note from this one bank town to ever be offered for sale publicly.

Grade:  
XF

Estimate:  
\$10000-12000

## Lot 358 - Camden, NJ - Ch. 1209 - \$5 1902 Blue Seal

This crispy late issue blue seal is from The First National State Bank of Camden, New Jersey. This is a choice problem free note with strong paper and lightly stamped black signatures.

Grade:  
VF

Estimate:  
\$300-500

## Lot 359 - Albuquerque, NM - Ch. 7186 - \$10 1902 Blue Seal

This ten dollar note is cut tight up top, but the purple stamped signatures always work well on blue seals. The back shows a little more wear. If you need a blue seal example for the state then this would be a great option.

Grade:  
Fine

Estimate:  
\$1500-2000

## Lot 360 - Roswell, NM - Ch. 5220 - \$10 1902 Blue Seal

Roswell is the alien capital of the United States. This note probably has the technical qualities to grade VF 20, but we called it a fine to play it safe. This is from the series of 1902, the charter date is 1919, but we can tell based on the serial number that this was likely issued around 1928. Only 28 large are reported for the entire bank.

## Lot 361 - Gouverneur, NY - Ch. 13911 - \$5 1929 Type2

This is only the fourth note known to exist from The First National Bank in Gouverneur, New York. Not only is it the highest grade of the four notes, but it is also the first \$5 note issued by the bank. The last auction result occurred eleven years ago in 2003. This is the first chance for many serious collectors to obtain a rarity like this. In terms of condition, a center fold and small ink stain on the back are noted.

Grade:

AU

Estimate:

\$5000-7500

## Lot 362 - Grand Gorge, NY - Ch. 7618 - \$10 1902 Blue Seal

This newly discovered choice VF note becomes just the third large size reported from this one bank town in Delaware County. The only prior offering was for a PCGS 20 that sold for \$8,800 in early 2013. Our specimen is far superior in both eye appeal and technical grade. This note has a blue and a purple signature. The paper is completely original and the note has huge margins. This is a chance for redemption if you were the under bidder back in 2013.

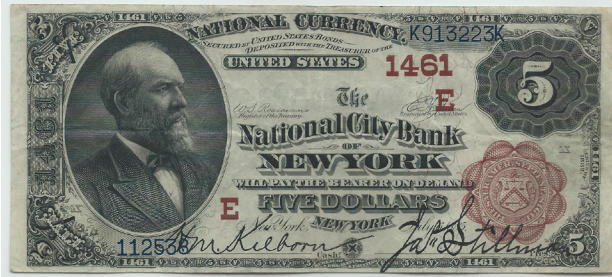

Grade:

VF+

Estimate:

\$8000-10000

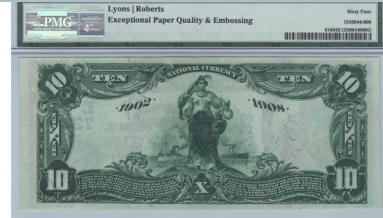

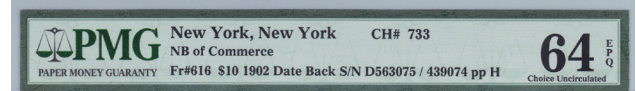

**Lot 363 - New York, NY - Ch. 1461 - \$5 1882 Brown Back**  
This is a nice brown back that works perfectly for the type. It has good margins, strong paper, and dark signatures. You can get all of that without spending thousands of dollars.

**Grade:**

**Estimate:**  
\$1000-1200

**Lot 365 - New York, NY - Ch. 733 - \$10 1902 Blue Seal**  
We were fortunate enough to handle this note before it was encapsulated. I honestly don't think I have ever handled a higher grade or more original blue seal date back. The charter number embossing is easily visible on the back of the note even to the naked eye through the holder. This note comes from the same collection as the six consecutive black eagles shown earlier in the catalog. Sure the bank is common, but you will have a tough time finding a better example for the type.

**Grade:**  
PMG Choice Uncirculated 64 EPQ

**Estimate:**  
\$700-900

**Lot 364 - New York, NY - Ch. 1374 - \$10 1902 Red Seal**  
This red seal is almost too pretty to call it just a type note. The holder can barely contain the originality of the paper on this one. The vanity president signature just comes as a bonus. For a New York City red seal, this has a lot of good things going on with it.

**Grade:**  
VF

**Estimate:**  
\$1000-1500

**Lot 366 - New York, NY - Ch. 12419 - \$5 1902 Blue Seal**  
This is not just another NYC note. This happens to be the fourth note known to exist on this charter. Bushwick is a neighborhood in Northern Brooklyn. The example offered here does have about three margin splits, none of which are longer than a quarter of an inch. We have this note estimated to reflect the Kelly premium of \$4,000.

**Grade:**  
VF

**Estimate:**  
\$4000-5000

## Lot 367 - Charlotte, NC - Ch. 2314 - \$2 1875 Lazy Deuce

It isn't every day that a first charter lazy deuce from a Southern state is offered for sale. In fact, if you defined the South as the eleven states of The Confederacy, those states would collectively only have 19 lazy deuces known to exist to represent the whole region. Before this discovery there were only two other notes known to exist from The Traders National Bank of Charlotte. One of those two notes is an ace listed as being in poor condition. That makes this note just one of two collectible specimens for the bank. So this not only presents a rare opportunity to buy a lazy deuce from North Carolina, this might also be the only chance to buy any note from this short lived charter. This find brings the total number of deuces on North Carolina to a paltry nine. The other eight notes happen to be from banks that are more common than The Traders Bank of Charlotte. The note we are offering here is the second nicest of all NC deuces in the census. The only note in better condition is a serial #1 note from a different Charlotte charter. That note is valued at roughly \$100,000 and its location is unknown. PCGS has awarded a grade of Very Fine 20 to this example. They note minor restorations. A couple of expertly closed margin splits have been professionally done so that this note will remain fully intact for the ages. Important first charter notes are being found less and less frequently. Don't let this one pass you by in the hopes that another one will turn up.

National  
Bank Notes

## Lot 368 - Wilson, NC - Ch. 2321 - \$10 1875 First Charter

Right now there are four other first charter notes listed as existing from Wilson, NC. The serial #1 ten from this bank is part of the most complete collection of North Carolina national banknotes. It certainly won't be for sale any time soon, and if it was, you would hate to learn the asking price. There are also two tens and one first charter twenty listed. Those notes happen to be an uncut strip of three that was sold by Lester Merkin in 1972. Those have never been seen since and one can only assume that they are secreted away somewhere in The United States. The note we are offering here is in fact the top note from that uncut 3/4 sheet. The circumstances surrounding how this one note got separated from the sheet are unknown, but it is very fortunate for collectors as this single note is far more attainable than an uncut strip of three first charter notes would be. As for this note, it is complete with the top selvage still attached. You will see that the selvage has the name "H. Weil" written in pencil. That name refers to Henry Weil. Henry Weil was the son-in-law of signing vice-president Emil Rosenthal. Treasury records show that this banknote would have arrived at the bank in Wilson in 1881, which was not too long after the marriage between Mina Rosenthal and Henry Weil. The signatures are as bold and rich as the day this was signed and tucked away. The vignettes and overprints are simply stunning. The note has picked up three vertical storage folds, but of course anecdotal evidence tells us that this certainly never entered the stream of commerce. This is a special note that will undoubtedly end up as the foundation of an advanced collection of national banknotes.

## Lot 369 - Wilson, NC - Ch. 2321 - \$20 1902 Blue Seal

Scarce NC blue seals typically don't come this nice. The example here has a blue and a black pen signature. Four other blue seals are listed in the census, but two of those don't have a grade. I am going to play the odds and say that this is very likely the nicest blue seal from the bank in terms of eye appeal.

Grade:  
VF

Estimate:  
\$2400-3000

## Lot 370 - Hettinger, ND - Ch. 8991 - \$10 1902 Blue Seal

This is a scarce blue seal from an Adams County bank. The signatures are dark and the paper is still strong. Most sellers would be inclined to call this note a VF 20. It is just one of six large size notes known for the charter.

Grade:  
Fine

Estimate:  
\$1000-1500

## Lot 371 - Cincinnati, OH - Ch. 93 - \$10 1902 Red Seal

If you are working on a first 100 charters, then this charter 93 red seal might be a nice way to splash in some color to the collection. The note has a few hard folds, but it doesn't have any splits or repairs. It certainly works as a type note as well.

Grade:  
Fine

Estimate:  
\$400-600

## Lot 372 - Columbus, OH - Ch. 7621 - \$10 1902 Blue Seal

How often do you see two blue pen signatures on a blue seal with the top selvage still attached? The answer is rarely or never. This note has a center fold and a horizontal fold at the very bottom margin. There are just 14 large notes that used this bank title. This is certainly the most interesting of the ten blue seals.

**Grade:**

**Estimate:**  
\$800-1200

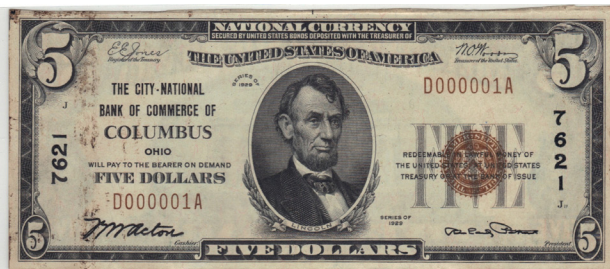

## Lot 374 - Mt. Vernon, OH - Ch. 7638 - \$10 1902 Red Seal

There are three other red seals listed in the census for the first title of this Mt. Vernon, OH bank. None of those three come close to looking like the screaming peach offered here. The signatures have that perfect hint of brown that so many important red seals have. Even the dark blue treasury number is popping.

**Grade:**  
VF

**Estimate:**  
\$2000-3000

## Lot 373 - Columbus, OH - Ch. 7621 - \$5 1929 Type1

There are only 15 small notes known to exist with this title. Of the 200 or so small size notes known to exist on the charter, this is the only serial number one example. This was obviously proudly framed at some point, so there are a couple of surface issues that can readily be seen in the scans. Otherwise just a single center fold is noted.

**Grade:**  
AU

**Estimate:**  
\$1500-2500

## Lot 375 - Newton Falls, OH - Ch. 7391 - \$10 1902 Blue Seal

Newton Falls, Ohio had a single national bank. It issued red seals and blue seals before closing in 1924. Before this discovery there were just two large notes reported as existing. Both of those are ragged blue seals listed as VG in the census. The note offered here, while it does have a minor margin split and a quarter inch internal tear, is still by far the nicest note for the town.

## Lot 376 - Checotah, OK - Ch. 5128 - \$5 1882 Brown Back

This state brown back from Oklahoma just turned up in a New England estate. Good margins, pen signatures, and strong paper are the highlights here. There are a handful of other state brown backs known from Checotah. A \$5 state brown back listed as XF/AU sold for \$23,000 in 2005. While this note is a grade back from that high watermark, our example is boosted by a single digit serial number of 3.

Grade:

Estimate:

## Lot 377 - Waynoka, OK - Ch. 9709 - \$20 1902 Blue Seal

There was a single currency issuing national bank in Waynoka. A mere 1557 sheets of blue seals account for its entire large-size issuance. The current census stands at one blue seal and two small size notes, with this being a new addition. None of the other notes have an auction history associated with them. So by all accounts, this is the first chance for collectors of the Sooner state to obtain any note from this rare town. To make this opportunity even more appealing, the note offered here is the nicest of the now four notes known on the bank. This is a nice VF with delightfully delicate pen signatures.

Grade:

VF

Estimate:

\$12000-15000

## Lot 378 - Wewoka, OK - Ch. 8052 - \$10 1929 Type1

There were only two national banks in Wewoka that issued national currency. One charter is completely unreported, and the other survivor is a small size note from this charter. The offering of the serial number 6 note tonight now makes just two survivors. The other small on record has no auction appearances. So this is likely the first chance for all collectors of Oklahoma national bank notes to add this town to their collection. If you have kept up with the Oklahoma market over the past five years then our estimate here will likely not surprise you. When it comes to unique for town, there are lots of exceedingly high price comps. In terms of condition, about five tiny pinholes are noted, along with a staple size hole just to the right of Hamilton's portrait. Everything else is exactly as you would expect for a fine 12.

## Lot 379 - Athena, OR - Ch. 4516 - \$10 1902 Blue Seal

Athena, today a town of 1,100 people, was originally a stage coach stop between the early Pacific Northwest towns of Walla Walla, WA and Pendleton, OR. The First National Bank of Athena opened in 1891 and it survived throughout the national currency era and would be the only issuer for the town. Despite its longevity, I guess the bank never had much demand for paper money. Today the large count stands at two 1882 blue seals and, with this addition, three 1902 blue seals. The example here actually has really strong paper, it has just picked up some margin splits over the years. The other two 1902 blue seals are in similar grades and have never sold for less than \$3,000.

Grade:  
Fine

Estimate:  
\$3000-4000

## Lot 380 - Burns, OR - Ch. 8691 - \$5 1902 Red Seal

Don't make the mistake of thinking this is one of the fairly common red seals from The First National Bank of Burns, Oregon. You are looking at one of only four large size notes known to exist from The Harney County National Bank of Burns. It is also most likely the highest grade of the four notes. The only other red seal known from this bank sold at auction in 2007 for \$18,400. It had margin damage and was at least a half grade lower with signatures not nearly as crisp as this example. The note we are offering here is further boosted with the low two digit serial number 11. The condition is as it appears in the scan.

## Lot 381 - Klamath Falls, OR - Ch. 11801 - \$20 1902 Blue Seal

This is the highest grade blue seal of the six documented as existing from this Klamath Falls, Oregon bank. If you are looking for an Oregon note that is scarce, with eye appeal, that isn't terribly expensive, then this might be a good option.

Grade:

Estimate:  
\$800-1000

## Lot 382 - Lebanon, OR - Ch. 9127 - \$5 1902 Blue Seal

This becomes just the second \$5 blue seal for The First National Bank of Lebanon, Oregon. A total of just six blue seals are now accounted for when considering all denominations. This is a lower end fine with a cut starting just below the president's signature and extending to the bottom margin. The back left and right margins do show some scuffing. This note is priced to sell at an opening bid of \$500 which is 25% of the \$2,000 Kelly value.

Grade:  
Fine

Estimate:  
\$1000-1500

## Lot 383 - Springfield, OR - Ch. 8941 - \$10 1902 Blue Seal

This is a new addition to the Oregon census. There are now just four large size notes documented as existing from Springfield. We are honestly shocked the number is even that high. The bank was the only issuer in town and just 1,378 sheets left the bank between 1907 and 1929. Three other blue seals are out there. One, a \$10 note, is a touch nicer than this example and it sold for \$10,350 in 2004. A twenty listed as fine sold for \$8,050 in 2006. Another \$20 is listed as VG and it has never sold at auction before. So the offering tonight marks the first chance in more than eight years for Oregon collectors to add this town to their holdings. This is a choice VF with no condition issues to speak of.

Grade:  
VF

Estimate:  
\$6000-8000

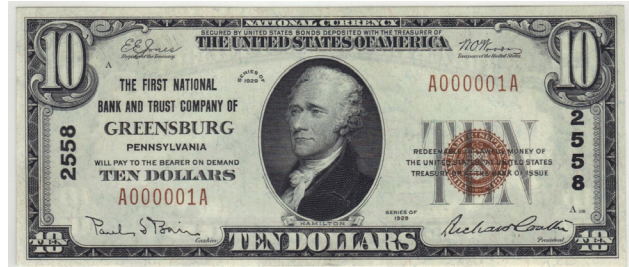

## Lot 384 - Ashland, PA - Ch. 2280 - \$20 1902 Blue Seal

This is a great collector note. It is VF with dark stamped signatures. The latest census information indicates that 24 large notes exist. It actually looks like a nicer blue seal has never been offered for sale at a major auction before. So it might take more than \$300 to bring this one home.

**Grade:**

## Lot 386 - Greensburg, PA - Ch. 2558 - \$10 1929 Type1

In 1931 bank charter number 2558 changed its name to The First National Bank and Trust Company of Greensburg. The cashier of the bank thought it prudent to save the top note from the first sheet of tens the bank was issued under its new name. So thanks to Mr. Bair, we have this banker trophy that is now 85 years old. This is the best note on this title. Of course being uncirculated never hurts, but it is the serial number one that will really attract the buyers.

**Grade:**

## Lot 385 - East Mauch Chunk, PA - Ch. 8446 \$5 1929 Type2 Sheet

It is rare that we add a new sheet to the national bank note census. A sheet of currency has been oddity since day one of collecting. When something like this turns up in an estate or safety deposit box, it is usually investigated and someone writes down the data. For whatever reason though this sheet has escaped the census takers until its appearance tonight. It is an uncut sheet of type2 fives from The Citizens National Bank of East Mauch Chunk. It happens to be the first sheet of fives issued by the bank, as signified by the serial numbers A000001 to A000006. Not surprisingly, this is the only uncut sheet known for this one bank town and it instantly becomes the most interesting paper money survivor for the bank by a wide margin.

**Grade:**

## Lot 387 - Phoenixville, PA - Ch. 674 - \$10 1882 Brown Back

Here is a fully intact but well-circulated 1882 \$10 brown back from a Chester County bank. Phoenixville is located about 28 miles northwest of Philadelphia. This may appear common at a glance. However, it is actually the first \$10 brown back reported for the bank. There are just 13 other large size notes known to exist. Don't expect this one to fly under the radar.

**Grade:**

**Estimate:**  
\$1000-1500

## Lot 388 - Schwenksville, PA - Ch. 2142 - \$10 1882 Brown Back

A \$10 brown back from this one bank town sold for \$2,400 in 2010. This note is in very similar condition. It also happens to be a new addition to the census and brings the total large count to just nine notes. This offering marks just the third time a large size note from this town has been available at auction.

**Grade:**

**Estimate:**  
\$1500-2000

## Lot 389 - Somerset, PA - Ch. 5452 - \$5 1902 Blue Seal

This is the B note from a cut sheet of three Somerset, PA blue seals. These are hands down the nicest notes now known to exist on the charter. They are all choice AU with a faint center bend. Each note is signed neatly in black ink by the assistant cashier. The president's signature is in blue ink, which is perfect for a blue seal. There really is no relevant auction sales data for a note like this from this charter. This is certainly a great opportunity to pick one of these up before they all disappear into serious Keystone state collections.

Grade: AU Estimate: \$800-1200

## Lot 392 - Warren, PA - Ch. 520 - \$10 1882 Brown Back

This is a nice looking VF note from Warren County. The vice-president and cashier both took their time to delicately sign this note. The signatures have survived perfectly since the late 19th century. It looks like it has been more than 14 years since a brown back from this bank has been offered for sale. 4 pinholes are noted.

Grade: VF Estimate: \$1000-1500

## Lot 390 - Somerset, PA - Ch. 5452 - \$5 1902 Blue Seal

This is the C note from the 3/4s cut sheet thoroughly described in lot 389. This one is also choice AU.

Grade: AU Estimate: \$800-1200

## Lot 391 - Somerset, PA - Ch. 5452 - \$5 1902 Blue Seal

Here is the bottom note from the 3/4 cut sheet described in lot 389. Again, choice AU with great signatures and blast white paper.

Grade: AU Estimate: \$800-1200

## Lot 393 - Clinton, SC - Ch. 8041 - \$10 1929 Type 1

This becomes the lowest serial numbered note known to exist for this small town bank in Laurens County, South Carolina. The serial number is certainly the attraction here. Notes from South Carolina are often heavily circulated and toned thanks to heat and humidity. This example here comes out of a collection in Kentucky and appears to be free of any significant condition issues.

## Lot 394 - Columbia, SC - Ch. 6871 - \$5 1902 Red Seal

Red seals from South Carolina have for many years been some of the most closely guarded rarities in the world of national banknotes. Since 1997, only two have sold at auction. A VF from a common Greenville bank sold for \$86,250 in 2002. And a fine from an even more common Charleston bank sold for \$15,250 at the 2013 ANA auction. The note we are offering just surfaced in eastern North Carolina and has made its way to our auction. It is on the lower end of the VF spectrum. It has light pen signatures of Gilbert Milo Berry and Edwin Wales Robertson. GM Berry would later break from The National Loan & Exchange Bank to open and become the president of The Columbia National Bank. EW Robertson left the bank in 1926 and passed control to his son, TJ Robertson, who became the bank's second president. By title, the story of The National Loan & Exchange Bank of Columbia begins in 1886 when it opened as a state bank in South Carolina's capital city. However, the actual history of The Loan & Exchange Bank begins in 1871 when The Central National Bank of Columbia was chartered. The Central National Bank was Columbia's second national bank. In 1892 The Canal Dime Savings Bank was opened and it was the direct successor of The Central National Bank. In 1903 The Canal Dime Savings Bank purchased The Loan & Exchange Bank, nationalized, and became The National Loan & Exchange Bank of Columbia. This proud and very important banking institution went into receivership in 1933 during The Great Depression. There is another red seal known from this charter; it is a ten. If memory serves, it was in three pieces when it walked into a coin show many years ago. Of course the five dollar note here is in a far nicer condition and it has had absolutely no restoration. This marks the first time any collector has ever had a chance to buy a state capitol red seal from the Palmetto state. The opening bid is \$7,500 with no reserve. The Kelly value on this note is \$15,000 in fine condition. That could very well end up being just the starting point of the action when this one sells.

Lot # 394- 394 | 98

## Lot 395 - Gaffney, SC - Ch. 5064 - \$20 1902 Blue Seal

Gaffney, SC had two national banks. This \$20 blue seal is from the early bank that changed its name from The National Bank of Gaffney to The First National Bank of Gaffney, just months before The Merchants and Planters Bank nationalized in 1914. We can assume that was a bit of old school gamesmanship to let the good folks in Cherokee County know that charter 5064 was the original national bank in town. Gaffney was the only town in Cherokee County to issue national currency. Very few notes show up from this location and most are in similar to condition to the note here, which is VG but free of any serious condition issues. It has dark stamped signatures of Maynard Smyth and Charles Wiegman Hames.

Grade:  
VG

Estimate:  
\$1000-1500

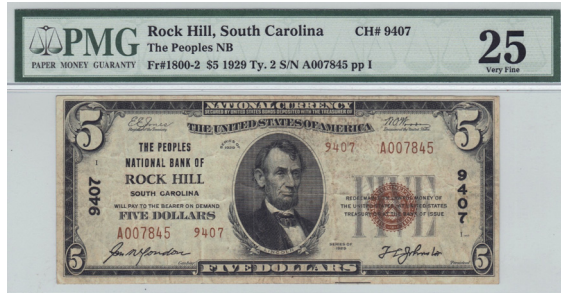

## Lot 398 - Brookings, SD - Ch. 6462 - \$10 1902 Blue Seal

The census for The Farmers National Bank of Brookings stands at just seven blue seals thanks to the addition of this ten dollar plain back. It appears that most notes are in a similar circulated condition. The stamped signatures of the cashier and president are strong. The left margin does have a split that stops at the front design.

Grade:  
Fine

Estimate:  
\$1000-1500

## Lot 396 - Rock Hill, SC - Ch. 9407 - \$5 1929 Type2

Today Rock Hill is one of the largest and fastest growing cities in South Carolina, helped in part by its proximity to Charlotte, NC. The note we are offering here was issued back when Rock Hill was just another sleepy Southern town. The census lists 27 small notes from this charter. Where most of those are today is anyone's guess. These are rarely offered for sale and they always command good money when they are available.

Grade:  
PMG Very Fine 25

Estimate:  
\$500-600

## Lot 399 - Mobridge, SD - Ch. 10744 - \$5 1902 Blue Seal

It is a bit unusual to see a stamped cashier signature and a pen signed president signature. Typically it is the cashier doing the grunt work of signing his own name while the president is out taking care of other interests and having his name stamped by another bank employee. Whatever the situation was in Mobridge we don't care, because today we have a lovely blue seal with a purple stamped signature and a sharply signed black signature. This is one of just a dozen large notes known for the charter.

Grade:  
Fine

Estimate:  
\$600-800

## Lot 397 - Spartanburg, SC - Ch. 1848 - \$20 1882 Brown Back

The condition on this example could be better. It has some tears and splits that show on the images. However, if you are looking for South Carolina brown backs, then some good advice would be to buy anything you see whenever it is available. Opportunities are few and far between, and with a starting bid of \$250 there is really no risk.

Grade:  
VG

Estimate:  
\$500-800

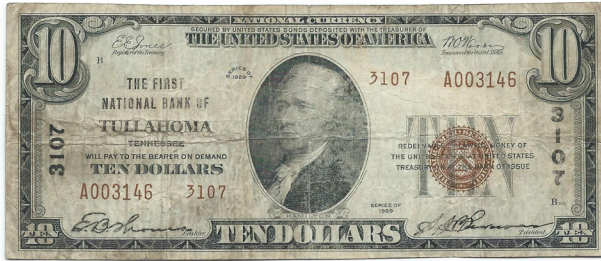

## Lot 400 - Volga, SD - Ch. 6099 - \$5 1902 Blue Seal

This is the only national bank ever located in Volga, South Dakota. This charter also happens to be the last bank in the country to open as a second charter bank. So if you are into firsts and lasts, then this might be an interesting addition to your collection. The note itself happens to be very rare without any special qualifiers. Just four large are known and this is the highest grade of that group. It faces up beautifully thanks to two richly stamped purple signatures. We will mention a small split that can be seen in the far left top margin. It could easily be trimmed out if it bothers you.

Grade:  
VF

Estimate:  
\$2000-3000

## Lot 401 - Tullahoma, TN - Ch. 3107 - \$10 1929 Type2

This is likely only the seventh small size note documented as existing from The First National Bank of Tullahoma, TN. This note has a lot of wear around Hamilton's portrait. Overall it is solidly within the parameters of the fine grade. Most other survivors from the bank are in a similar condition and trade well above the opening bid of our note here.

**Grade:** *Fine* **Estimate:** \$1000-1500

## Lot 404 - San Antonio, TX - Ch. 5179 - \$10 1929 Type2

San Antonio had a lot of privately named banks. The Frost National Bank is one of them and it opened in 1899. This note has a small bottom margin split just barely hitting the design; ten or so pinholes are also noted. Hopefully the rich signatures, including that of Mr. Frost, will make up for those two minor condition issues.

**Grade:** *Fine* **Estimate:** \$1200-1500

## Lot 402 - Munday, TX - Ch. 7106 - \$20 1929 Type2

Munday is a small Texas town located in Knox County. The nearest larger cities are Abilene and Wichita Falls, both about 75 miles away. Today the population of Munday is just 1,500 people, making the town about the same size as when this \$20 blue seal was issued. The addition of this note to the census now makes just six large notes, all of which are blue seals, and one of those six is in an institution. This note is graced with a blue pen signature of the assistant cashier. The vice-president has signed in black ink. I always enjoy seeing a note signed with the qualifiers of "a" for assistant and "v" for vice-president. It makes you wonder what the head cashier and president were up to when this got signed. Overall this one is nice with a few dark spots that are evident in the scans.

**Grade:** *Fine* **Estimate:** \$1500-2000

## Lot 405 - San Marcos, TX - Ch. 3346 - \$50 1929 Type1

The national bank note census shows just five other 1929 notes known to exist from The First National Bank of San Marcos, Texas. Only one of those is another \$50. This also happens to be the condition census leader at choice very fine 35 with the EPQ designation.

**Grade:** *PMG Very Fine 35 EPQ* **Estimate:** \$2000-2500

## Lot 403 - Rockport, TX - Ch. 4438 - \$10 1929 Type2

The census shows that this charter has six blue seals documented. Three of that total are locked up in The Moody Foundation. That leaves this newly discovered note and just three others available to collectors. This example is a VF with great signatures.

## Lot 406 - Salt Lake City, UT - Ch. 2059 - \$5 1875 First Charter

This newly discovered Utah territorial is just the second \$5 first charter documented for the state. The other \$5 FCP territorial is from the same bank and is listed as VG with problems. It was last available in 1986. To put the rarity of this note into perspective, please consider these population numbers of first charter territorial fives: Arizona-3, Colorado-33, Idaho-1, Montana-12, New Mexico-8, Dakota-11, Washington-3, Wyoming-6, Nebraska-0. I don't think anyone would argue that this same type of note from Arizona, Idaho, Nebraska, or Washington would be a six figure rarity. Yes, territorials are in general scarcer from the four previously mentioned states, but good Utah territorials are rarely available for sale. In fact, all things considered, this is likely one of the ten best nationals known from Utah. This note was discovered in South Central Idaho just weeks ago where it had been in the same family as long as they could remember. It's not a stretch to imagine this note migrated from Salt Lake City with the waves of Mormon pioneers that settled the area around Rigby, Idaho in the late 19th century. I would say I am sure that this note could tell some stories. However, based on its condition, I would say this note didn't spend much time in commerce before being tucked away. The note is a much better than average VF, with strong paper and perfect signatures. For the sake of completeness we will mention a thin three point punch in the note this is about 1/16th of an inch wide and is only noticed when held to the light. Otherwise the note is free of pinholes and repairs.

## Lot 407 - Fair Haven, VT - Ch. 2422 - \$5 1882 Date Back

There are now just four total \$5 1882 value backs known to exist from Vermont. The example we are offering here is from the privately named Allen National Bank of Fair Haven. This note is complete with the signature of Mr. Allen. This is the lowest grade of the four notes of this type from Vermont, so it is your best option if you need to fill the hole but don't have several thousand dollars to spend.

**Grade:**

*Fine*

**Estimate:**

\$2400-3500

## Lot 408 - Independence, VA - Ch. 10834 - \$10 1902 Blue Seal

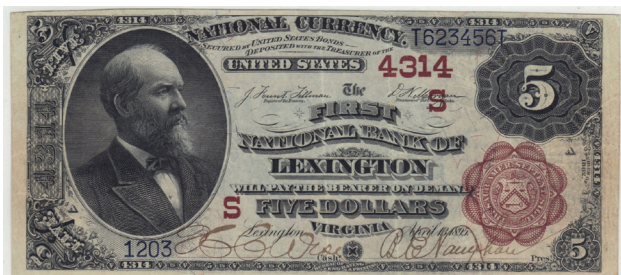

Before the discovery of this note, there were just two blue seals recorded for Independence. This was the only bank in town. The other two blue seals have never before appeared at auction. So this marks the first chance for Virginia collectors to add a large note from this town to their holdings. This is a VF that faces up very nicely thanks in part to two bold stamped signatures.

**Grade:**

*VF*

**Estimate:**

\$5000-7000

## Lot 409 - Lexington, VA - Ch. 4314 - \$5 1882 Brown Back

We don't use the term trophy note loosely, but that title is appropriate here. This is the only brown back known from charter 4314. The bank originally opened as The First National Bank of Buena Vista. It became The First National Bank of Lexington in 1895. There are five 1902 blue seals listed for the bank, but none are better than F/VF. The note we are offering here is an absolute peach. The margins are perfect and brown signatures look great set against the brown treasury seal. The note has three vertical folds. I would be shocked if this ever circulated though. Simply put, you just do not see \$5 brown backs from Virginia that have grade as well as both bank and town rarity. We believe this note is estimated appropriately and we know whoever wins it will be far from disappointed with the purchase.

**Grade:**

*XF*

**Estimate:**

\$7000-10000

## Lot 410 - Stanley, VA - Ch. 10973 - \$10 1929 Type1

Virginians love their numismatics, and small size nationals are some of their favorites. We are offering a small size type1 1929 \$10 from Stanley. Only six or seven examples are known to exist, and that simply isn't enough for all the interested parties to own one. Expect this one to get some attention.

**Grade:**

*Fine*

**Estimate:**

*\$1000-2000*

## Lot 411 - Aberdeen, WA - Ch. 11751 - \$5 1902 Blue Seal

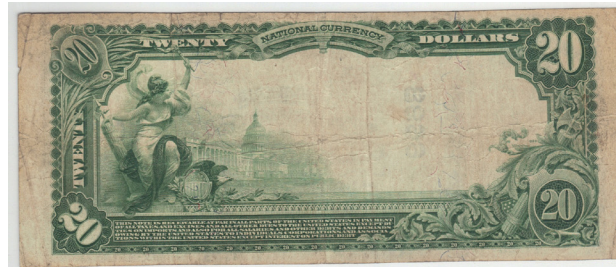

We can't find any auction results for a blue seal from The First National Bank in Aberdeen, Washington. This is the second title the bank used. The note we are offering here is in fine condition. The signatures are boldly stamped in black ink. The paper is problem free and as you would expect for the fine grade. The Kelly premium is \$5,000 in fine, but we have this estimated very conservatively so it is priced to sell to the high bidder.

**Grade:**

*Fine*

**Estimate:**

*\$2000-3000*

## Lot 412 - Dodgeville, WI - Ch. 6698 - \$20 1902 Blue Seal

This 1902 \$20 blue seal is from the only bank in Dodgeville, Wisconsin to issue national banknotes. It is a nice VF. We are fortunate that the president grabbed a purple pen to sign his name. That certainly adds some extra appeal. This is one of four \$20 blue seals on the bank.

**Grade:**

*VF*

**Estimate:**

*\$600-800*

## Lot 413 - Fond Du Lac, WI - Ch. 555 - \$2 Original Series Lazy Deuce

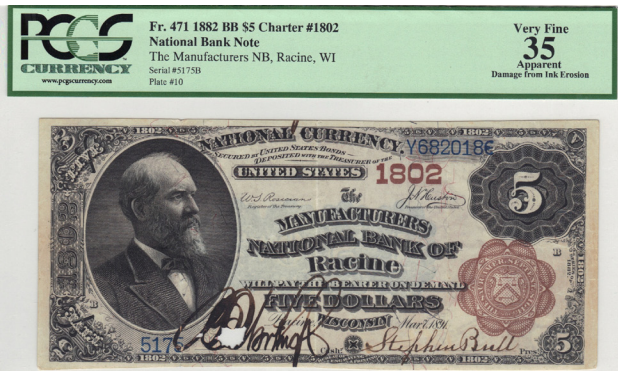

Exclusive of the hoard of La Crosse notes, this discovery from Fond Du Lac becomes just the twelfth lazy deuce known to exist from Wisconsin. This also happens to be the first lazy deuce documented from Fond Du Lac. That makes it a very important find for collectors of the badger state. The condition is exactly as you would expect for a piece of paper money issued prior to 1875. We won't try to oversell this note because experience has shown that Wisconsin collectors will know just how important this note is and they will bid what they are comfortable paying. Of course though, after tonight, only one collector will be able to claim that he owns a lazy deuce from this city.

**Grade:**

**Estimate:**

## Lot 414 - Racine, WI - Ch. 1802 - \$5 1882 Brown Back

It's too bad about the ink burn on this example. That is the only thing keeping it from being a choice peach. I guess in the long run vanity does have a cost. It is still just one of 19 notes known for the charter. As a collector, I would have absolutely no problem owning a beautiful note like this, despite the small condition issue.

**Grade:**

PCGS Very Fine 35 Apparent

**Estimate:**

\$1000-2000

## Lot 415 - Stoughton, WI - Ch. 9304 - \$10 1902 Blue Seal

This is a really pretty note. Large notes from charter 9304 in Stoughton must truly be scarce because even the extensive Krause collection lacked a blue seal from this charter. The note offered here has an ink signature for the cashier and a stamped purple signature for the president. This is the sixth blue seal documented as existing for the bank. If the census data is correct, then this would easily be the nicest of that half dozen.

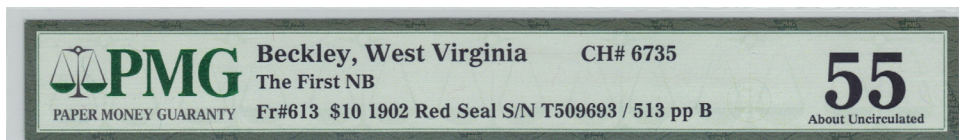

**Grade:**

VF

**Estimate:**

\$1200-1500

## Lot 416 - Beckley, WV - Ch. 6735 - \$10 1902 Red Seal

The First National Bank of Beckley opened in 1903 and closed in 1907. If you know your national banknotes, then you will instantly recognize that as a red seal only bank. 1902 red seals were issued between March 1902 and December 1908. For a bank to be a "red seal only bank" it had to open and close between that threshold. Banknotes from red seal only banks typically represent some of the rarest and most desirable banknotes that could possibly exist for a state. Of course very few banks were so poorly managed or so thinly capitalized that they would only be in business for such a short period of time. However, Beckley's first attempt at national banking must not have been satisfactory, because it appears that this bank liquidated in August of 1907. It only managed to issue 521 sheets of currency. This note is #513. I am not sure of the story as to why this note survived. However, based on the late serial number and the superb condition, I would guess that a bank officer saw the proverbial writing on the wall and tucked this away as a souvenir of "that time I was in banking." If you care about rarity, statistics, and eye appeal, then I can't imagine ever having a chance at a note from West Virginia that checks all of those boxes like this note does. PMG has graded it an AU 55, thus making it the standout of the paltry three survivors for the bank. With a Kelly premium of \$15,000 in fine condition, this peach should exceed the estimate here, and if it doesn't then someone got a bargain.

## Lot 417 - Evanston, WY - Ch. 8534 - \$10 1929 Type2

Let's start with the facts. This very important new addition to the national bank note census is the ONLY small size serial #1 \$10 note known to exist from Wyoming. It is also the ONLY type2 serial number one known to exist from Wyoming. This is the first chance for any collector to purchase a #1 Wyoming small from a town outside of Kemmerer since an uncut sheet from Lovell was sold in 1946! This discovery now brings the total number of small size #1s from Wyoming to 14. Six are from a cut sheet on Kemmerer. Six are part of the previously mentioned uncut sheet on Lovell. And there is a single #1 \$20 on Cody that has never traded hands publicly. In terms of grade, you can't tell from the scans, but this note does have two or three light vertical folds. The front also shows a couple of faint lines of paper clip rust. There are a lot of state targeted #1 collections that could become much more impressive with the addition of this note from Evanston.

## Lot 418 - 32 Subject Giori Test Sheet

If you collect the odd and unusual in numismatics, then you pretty much have to have a giori test sheet. Giori notes on their own are not necessarily rare and can usually be bought for around \$125 - \$250 each or for a pair. However, you won't find many fully uncut sheets of 32 notes like we are offering here. The American Bank Note Company contracted with The American Can Company to help ABNCo design a new printing press for the BEP. Random plates were selected to test the new press. The press ended up never getting used and instead we got these test sheets that we call Giori notes.

Here is an honest VF series 521 one dollar replacement. The latest census information shows that just 13 of these are known to exist. Two of those 13 are listed as XF and two are listed as VF. So this one is right up there in the top third in terms of quality.
